Color Correction & Theory

Harmonize Color/ Color Through Skin

Permanent Makeup is not a science but an art! Color management done properly is all we can do to have a happy client every year. A combination of product knowledge and following the rules will ensure successful procedures. Learn pigment classification, color tones, skin tones, harmonizing, color correction (brow/eye/lip), RULES.

Eliminink Removal System

Body & Cosmetic

Have a client with blue/black eye brows? Sometimes we need to just pull the color out, NOT pack color in. If this sounds familiar, why send her somewhere else for removal? You might not see her again. All the more reason we need to add this technique to our services. Learn to remove or lighten unwanted tattoos, so then you can tattoo in a more desirable look for your client. Work will be done on live models.

Advanced Microblading Course
