## ELIMININK

Our highly skilled artists use a removal procedure that is similar to the original tattoo application, except we apply ElimInk™ Tattoo Remover as we work on the effected tissue. This process of oxidation safely lifts the inks and pigments to the surface, where the area scabs over.

# PERMATECH COURSES

Become Certified in Permanent Makeup using "The Artistry of Permotech Technique". This advanced skill tech will teach you updated tools to help your skill reach top notch performance.
